Description

Description:

Gel is fast acting with no systemic absorption. Contains 20% benzocaine for effective and fast temporary pain relief, it provides temporary relief of pain during procedures including: local anesthetic injections, periodontal curettage, impression taking and intra-oral x-rays. It comforts patients with ulcers, wounds and other minor irritations. It contains specially formulated flavors to prevent bitter aftertaste and to minimize salivation, allowing the effect of the oral anesthetic to prevail. It has a rapid onset within 30 seconds.

Our gel is the only one that contains: Xylitol: this is an ideal ingredient for caries prevention. This ingredient is specific in its inhibition of the mutans streptococci group, bacteria that are significant contributors to tooth decay. It is safe for diabetics and individuals with hyperglycemia.

Vitamin E: this ingredient provides beneficial antioxidant effects.
